

**INCIDENT MANAGEMENT SITUATION REPORT  
SUNDAY OCTOBER 31, 2004 – 0800 MST  
NATIONAL PREPAREDNESS LEVEL 1**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 2 new fires reported. Very high fire indices were reported in Colorado. This will be the last daily situation report for the year. This report will be posted every Friday at 1000 MST through the winter unless significant activity occurs.

**OUTLOOK:**

**Weather Discussion:** A cold front has moved through the Pacific Northwest and has settled over the northwestern quadrant of the country. Behind the front from the Cascades eastward to the Northern Rockies, light valley rain showers and higher elevation snow showers will occur. In southern California, an offshore wind pattern will be in place with gusty northeast winds. These offshore winds will persist into election day.
